

# Engineered Coatings for Exceptional Print Performance

**Manufacturer & Exporter of**  
Over Print Varnish & Chemicals For Print  
& Packaging Industry

[www.qualityproductsindia.com](http://www.qualityproductsindia.com)

## “ Vision

To manufacture, distribute, and deliver high-quality coating solutions and specialty chemical products that consistently meet customer requirements across the graphic arts, printing, and packaging industries.

## Mission”

To build a globally respected coatings and chemical company where performance, safety, and environmental responsibility guide every stage of development, production, and supply.

**Shri Rajesh  
Kantilal Mehta**  
(Rajubhai)

## About Us

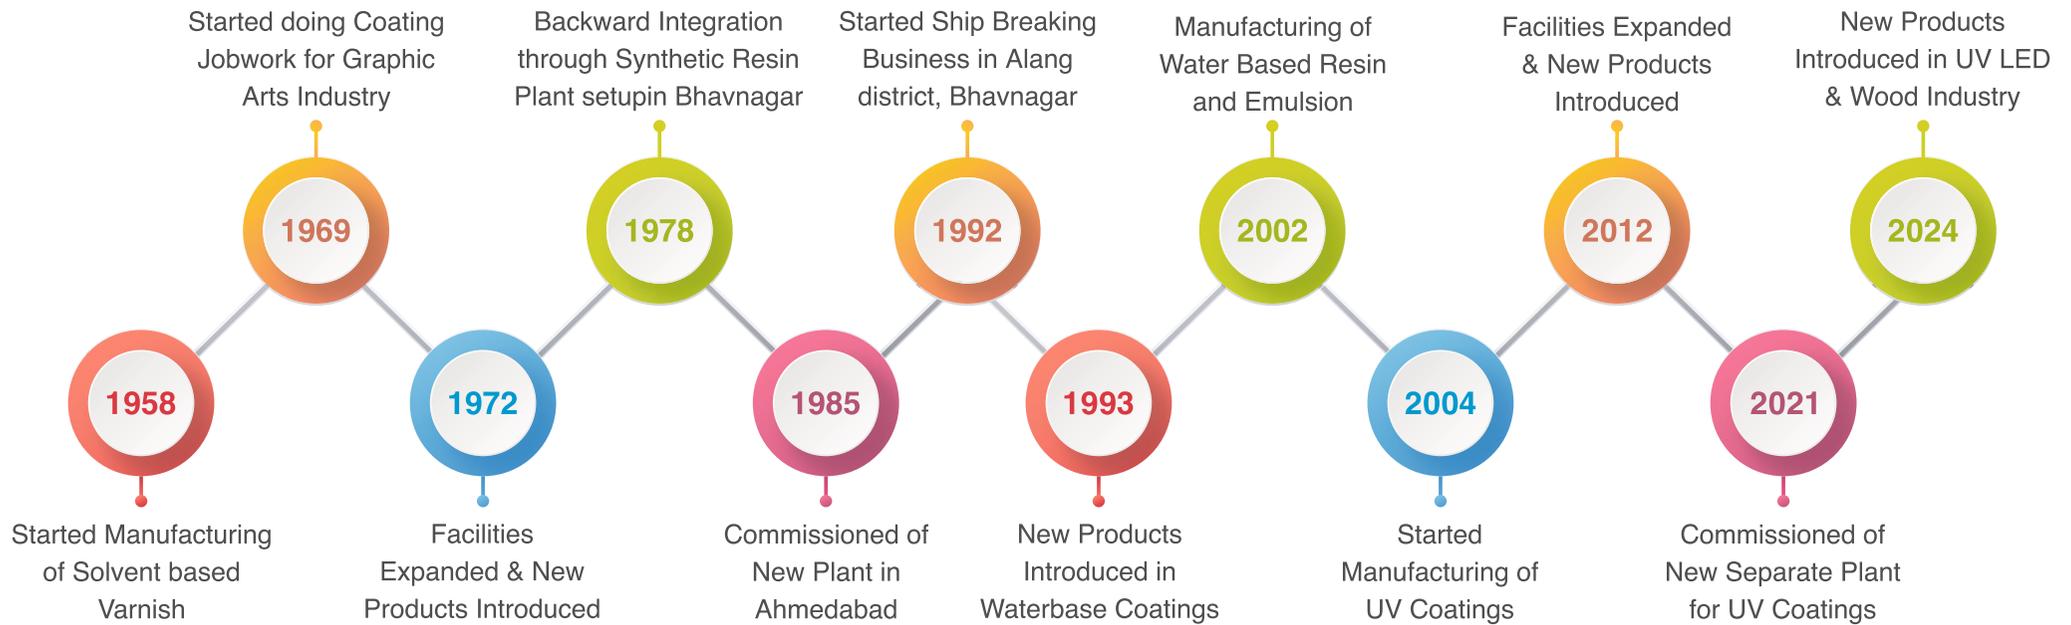

Established in 1958 by Late Mr. Nagindas L. Shah, Quality Products India was further strengthened under the leadership of Mr. Rajesh K. Mehta, whose extensive industry experience spans project planning, plant commissioning, operations, policy formulation, and nationwide sales development. In 1992, he played a transformative role in the printing industry by pioneering the shift from solvent-based varnishes to eco-friendly water-based coatings.

Today, Quality Products India stands as a trusted leader in the Graphic Arts Industry, serving printing ink and coating manufacturers in India and overseas. Our comprehensive portfolio spans Aqueous Water-based, UV, and Solvent-based coatings, reflecting our commitment to performance and consistency.

Pioneers in eco-friendly coatings, we supply low-VOC, HAP-free, cost-effective solutions for food and pharmaceutical packaging, folding cartons, labels, flexible laminates, wood, playing cards, and commercial print applications.

# Milestones

## Chintan R Mehta

Managing Partner

Mr. Chintan Rajesh Mehta brings a global perspective and strategic insight to QPI's leadership, driving innovation across marketing, business development, and brand growth to support the company's long-term success.

## Vidhan R Mehta

Managing Partner

A results-driven professional, Mr. Vidhan Rajesh Mehta leads QPI's production and operations with a focus on precision and efficiency, ensuring every product meets the company's quality and performance standards.

## Late Rushabh R Mehta

Managing Partner

Late Mr. Rushabh Rajesh Mehta was a successful marketing manager and respected leader in the Coating, Reducers & Denatured Alcohol segment, whose strategic expertise contributed significantly to business growth and market development.

## Why Us

Quality Conscious

Cost Effective

Product Innovation

Timely Delivery

Uninterrupted Supply

Service Oriented

## Key Statistics

Monthly Capacity  
+400 MT

Research  
Approach

Team Size  
40-45 people

Manufacturing Area  
+25000 sq feet

## Our Infrastructure

Our infrastructure is engineered to support consistent quality, operational efficiency, and scalable growth. With a manufacturing area exceeding 25,000 sq. ft. and a monthly production capacity of over 400 MT, we are equipped to meet diverse industry demands.

Backed by a focused research-driven approach and a skilled team of 45+ professionals, our facilities ensure product innovation, cost efficiency, timely delivery, and uninterrupted supply—reinforcing our commitment to reliability and customer satisfaction.

## R&D and QC Lab

Our advanced R&D and Quality Control laboratory is fully equipped to conduct rigorous testing at every stage, ensuring consistent quality from raw material evaluation to final product approval.

# Our Products

- ◆ Aqueous Coatings
- ◆ UV/LED Coatings
- ◆ Solvent Based Coatings
- ◆ Oil Based Coatings
- ◆ Reducers
- ◆ Retarders
- ◆ Denatured Alcohol
- ◆ Washes
- ◆ Cleaners

## Industries Served

Offset  
Printing

Paper Converting  
& Corrugation

Flexo  
Printing

Gravure  
Printing

Wood &  
Laminates

Digital  
Printing

# Aqueous Overprint Coatings

Our 'Aqua QuipiCryl' brand of water-based coatings are engineered for printing, converting, and packaging applications, delivering gloss, protection, durability, abrasion resistance, and controlled COF.

With very low to negligible VOC content, they are environmentally responsible and suitable for commercial printing, folding cartons, labels, food packaging, corrugation, foils, paper cups, and flexible packaging.

These coatings are compatible with most ink systems and application methods, ensuring reliable performance across a wide range of substrates.

- ◆ High Gloss Coatings
- ◆ Work & Turn Coatings
- ◆ Low Migration
- ◆ Soft feel Coatings
- ◆ Matte Coatings
- ◆ Satin Coatings
- ◆ Coatings for Digital Applications
- ◆ Playing or Game Card Coatings
- ◆ Foil & Plastic Substrate Coatings
- ◆ Non Skid & Controlled COF Coatings
- ◆ Primers Coatings for UV and Film Lamination
- ◆ Custom Developed Coatings for Specific Customer Requirement
- ◆ High Abrasion Resistant Coatings for Pharmaceutical Industry
- ◆ High Abrasion Resistant Coatings for Mobile Phone Industry
- ◆ Neutral Coatings
- ◆ Ink Duct Coatings
- ◆ Heat Resistant Coatings
- ◆ FDA Complaint Coatings
- ◆ Special Substrate Coatings
- ◆ General Purpose Coatings
- ◆ Coatings for Cigarette Packaging
- ◆ Pearlescent/Glitter/Grit Coatings

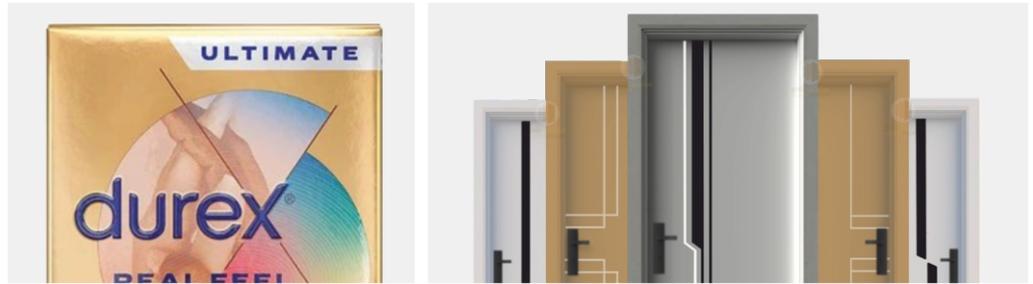

## UV / LED Coatings

Our 'Ultra Vee QuipiCure' brand of UV and LED coatings are designed for instant curing and superior resistance, delivering premium performance across demanding print applications.

Suitable for commercial printing, folding cartons, labels, flexible packaging, beverage, and screen printing, these coatings support inline and offline operations.

They are compatible with multiple application systems, including flexo/anilox, gravure, ink duct, screen, spray, and roller coaters, ensuring versatility, efficiency, and consistent results across diverse substrates.

- ◆ Drip Off UV Coatings
- ◆ Ink Duct UV Coatings
- ◆ Texture UV Base Coat
- ◆ Matte UV Coatings
- ◆ UV Adhesives
- ◆ Narrow Web Coatings
- ◆ UV Wood Coatings
- ◆ Gravure UV Coatings
- ◆ Hi Slip Playing Card UV Coatings
- ◆ Raised Image / Tactile UV Coatings
- ◆ Digital / Photo Album UV Coatings
- ◆ Flexible, Low Odor, Low Migration Coatings
- ◆ Special Screen Effects Applied UV Coatings
- ◆ Imprintable, Glueable and Stampable UV Coatings
- ◆ High-Gloss UV In-line / Offline Paper & Board Coatings

Engineered Coatings for Exceptional Print Performance

# Solvent / Oil Based Coatings

Our 'MRS QuipiLite and QuipiCeal' brands of solvent-based and oil-based coatings are formulated to meet diverse requirements of the printing, converting, and packaging industries.

Designed for strong adhesion, durability, and consistent performance, these coatings are compatible with a wide range of substrates and application processes, making them suitable for specialized and demanding print environments where solvent-based systems are preferred.

- ◆ Ru Wash Primers
- ◆ Playing Card Coatings
- ◆ SB Heat Sealable Coatings
- ◆ OP Base Medium (Oil Base)
- ◆ SB Coatings for Gravure Industry
- ◆ SB Coatings / Primers for Flexible Industry

# Reducers & Denatured Alcohol

We manufacture high-quality Reducers & Retarders, and trade in Denatured Alcohol and Solvents for a wide range of industrial applications.

These products are widely used across pharmaceuticals, printing inks, coatings, chemicals, and allied industries, delivering reliable solvency, consistent performance, and compliance with stringent quality and safety standards.

- ◆ Antifreeze Coatings
- ◆ Leather Coatings
- ◆ Laboratory Chemicals
- ◆ Perfumery Grade Alcohol
- ◆ Alcohol Based Coatings
- ◆ Floor Cleaners / Detergents
- ◆ Printing Inks- as Solvent
- ◆ Foundry- Alcohol based Coatings
- ◆ Pharmaceuticals- Solvent for synthesis
- ◆ Cosmetics
- ◆ Wood Polishes
- ◆ Pesticide
- ◆ Biocides
- ◆ Degreasers
- ◆ Disinfectants
- ◆ Fungicide
- ◆ Hand Sanitizers

## Our CSR Initiatives

Quality Products India is committed to be responsible corporate citizenship. Our CSR initiatives focus on education, healthcare, and animal welfare, reflecting our belief in giving back to society and the environment. Through sustained social engagement, we strive to create a positive and lasting impact for a more sustainable future.

## EHS (Environment, Health & Safety)

At Quality Products India, employee safety, process integrity, and environmental sustainability are core priorities. Through systematic R&D and pilot-level testing, we develop strong SOPs that ensure safe, efficient manufacturing while minimizing environmental impact and promoting responsible resource use.
